Join the other members of the TIPRO Power Coalition!

Our association purchasing group is the easiest way to get the lowest energy bids from competing providers. We have partnered with a reputable, experienced energy broker, SimplySmart, who can help you compare bids from multiple providers and give you the ability to choose the best product for your business.

Members are saving money on their commercial electricity bills! SimplySmart obtains competitive bids and provides personal customer service to meet your business needs.

How the Program Works

- You provide information about your business and sign an authorization that allows us to request usage data from the "wires" company that reads the meters and delivers your electricity.
- The usage data is analyzed, combined with a pool of other chamber members from around the state and prepared for the bidding process.
- The data is provided to a group of Retail Electric Providers (REPs) who have been pre-qualified based on contract terms and business practices.
- SimplySmart advises you of the upcoming bidding date, explains the pricing and contracting process, and answers any questions.
- On the bidding date, we prepare an apples-to-apples comparison of all bids received for your business to determine which offer will save you the most money.
- SimplySmart is available to assist you with any questions you might have about the recommended offers.
- When you accept a bid and sign a contract with a SimplySmart representative, your account will be transferred to the new provider on the normal cycle for reading your meters or at the expiration for your current contract.
- After you receive your first bill, SimplySmart can compare it to your contract and help you resolve any differences.
- SimplySmart is also available to assist you with other energy usage matters such as new meter coordination or energy conservation.
